Subject: Microsoft Settlement

Enough is enough, this is a just and more than fair settlement for a company that gave us software and charged us nothing for it! Let the whiner's shut up and take the profits they didn't deserve! Please we as a country are at war. Enron and thousands of its employee's are bankrupt. Why continue a suit against a company that hurt no one instead of dealing with real issues like war and bankruptcy?

Settle this suit!
Lynette Matheson
